# Protection as an *ISR* Function

Common-sense  
Intelligence (ISR), from  
Frontier to Street Level

Public-Private  
Partnerships

Information Flows for  
the Battlefield or  
the Courtroom

## Protection Audits

What is the purpose of your active and passive infrastructure protection elements? Are the elements fit for their purpose? With a constantly changing threat matrix, how would you know? From whole countries to individual enterprises, we audit and test your security measures against potential threats in order to strengthen your protection schemes.

## Protection Planning

- Electronic Surveillance / Counter-Surveillance
- Physical Security Measures
- Urban Planning
- Constitutional Policing
- Integrating Security and the Courts
- Real-Time Analysis
- Citizen Engagement

Information Sharing from the Crime Scene to the Court Room

Standards Compliance and Training to Competency for all Forensic Domains

Laboratory and Policy Design for Human Factor and Error Mitigation

# Forensic Sciences

We offer training for all stake-holders within the Judicial System in the handling of scientific evidence in a standards compliant manor.

*We make the complex understandable.*

*Science can be used as a bridge between diverse communities.*

***We offer laboratory services to ease your start-up in the forensic sciences.***
